## Flexible Combi Crewvan, the tradesmans best friend

By adding a second row of up to three single removable seats this excellent concept, the CoTrim DuoLiner, offers considerable benefits to the van operator, providing safe comfortable transport for up to six people including the driver, with the added benefit of being able to remove one, two or all three second row seats to carry a full load of cargo or tools and equipment, thereby providing a company car or commercially usable vehicle as required during the week.

### FLEXIBLE COMBI CREWVAN, THE TRADESMANS BEST FRIEND

A range of optional accessories are available as listed to enable you to put together a specification to suit your requirements.

Safety is a key ingredient. The extra seating has been carefully designed and tested to comply with **EU Whole Vehicle Approval safety standards** giving peace of mind to the operator and passengers.

Comfort is also very important. These high back seats, with contoured foam and deep seat cushions, provide a high level of passenger comfort, widely used by the Emergency Services and other Specialist applications, where long periods of sitting are required. Added to this, the positioning of the seats on twinplate rails has been worked out in such a way that both passenger legroom and load area are maximized.

With the ability to combine two roles, the DuoLiner Combi crewvan opens up a world of possibilities to a wide range of businesses and other applications.

### STANDARD CONVERSION SPECIFICATION

Single removable Comfortline seats with in-built headrests and 3-point occupant restraints, installed to 850mm twinplate rail system to the first row of saloon.
