

CoTrim's range of conversions to the **Volkswagen Transporter Panel Van & Kombi**

Van Conversion Centre

Welcome to CoTrim

Your Safety & Comfort is our priority

CoTrim is a well-established conversion company, driven by the highest standards of service and quality; established for over 23 years, and a market leader in crew van, wheelchair access and minibus conversions.

- Established client base
- High repeat business ratio
- Experienced and responsive
- Very low staff turnover
- Volkswagen Commercial Vehicles Accredited Converter
- Volkswagen Delivery Point Code
- Secure vehicle compound with CCTV
- Conversions compliant with Whole Vehicle Type Approval Legislation.

Our Standards

The products we install are rigorously tested, certified and fully compliant with stringent EC safety standards for Whole Vehicle Type Approval.

This ensures all vehicles are 'Safe to use on the road and have a lower impact on the Environment.'

Working closely with the VCA, (Vehicle Certification Agency) CoTrim has been granted Conformity of Production, backed up by a UKAS approved ISO9001 quality management system.

Our Vision

To remain at the forefront of the vehicle conversion industry through ongoing growth and investment, and a commitment to solving challenges and needs of our customers.

Our Mission

To consistently provide the highest levels of quality and support, by an in-depth understanding of the needs of our customers, and the ways in which we can provide solutions to those needs.

Our Commitment

Proven commitment to finding cost-effective and innovative solutions.

Consistent and unbroken accreditation to relevant ISO Quality Standards.

Long-standing track record of confidentiality, trust and core values.

In-depth understanding and knowledge of vehicle conversions and associated products.

Ongoing policy of acquisition of new equipment maintains our unmatched capabilities in the field.

Pro-active and responsive to H&S issues, minimising our impact on the environment.

Our Values

- Clear and straightforward in our communications
- Trustworthy and accurate in our dealings
- Flexible and open-minded in our approach.
- Committed to seeing your project through
- Progressive, seeking new challenges
- Supportive and helpful in achieving your objectives.

Our Range of Conversions:

SAFETY & REGULATIONS

Your safety and comfort is our number 1 priority, not cost. It's peoples lives we are protecting...

Type Approval Regulations

CoTrim seat conversions are covered by type approval legislation, fully proven and certified, to protect vehicle owners, drivers and passengers.

In order to obtain M1 or N1 class type approval of a vehicle, the entire vehicle as a whole should meet a series of EU directives and testing requirements. To achieve the approvals required when installing additional passenger seats into a vehicle, the seats and safety belts must not only be safety tested as individual units, but also as a complete system, including the vital seat to vehicle floor fixings in a vehicle shell that the seats are intended to be fitted into.

Safety

CoTrim have successfully carried out two VCA witnessed ECE R14 Row 2 Seat/Seat Belt pull tests at 20g to Transporter LWB bodysells at Millbrook in May 2018, using original Volkswagen Kombi seats, adding additional strengthening to the floor and seat belt positions — videos will available on CoTrim's website www.cotrim.co.uk

Test 1. single nearside seat and double offside bench seat, second row

Test 2. triple folding bench seat, second row

This also has the carry across for:

- a. single seat to the LHS or RHS – 2nd row.
- b. single seat to middle – 2nd row.
- c. double seat only – 2nd row.
- d. SWB models in addition to LWB.

Certification

These seat conversions will be added to our NSSTA (National Small Series Type Approval) program so we can not only convert

used T5/T6 Transporter Panel Vans to Kombis but also new, issuing type approval certificate of compliance to register new vehicles correctly.

Conversions to new and used vehicles are also issued with a CoTrim seat installation certificate proving what the conversion is tested to for further peace of mind.

Safety Test Data

CoTrim has full safety test documentation readily available on file for customer appraisal.

Quality

CoTrim's passenger seat conversions will last for the lifetime of your vehicle, and will cope with sustained use - day in and day out.

Please get in touch for further info anytime.

SINGLE & DOUBLE VOLKSWAGEN KOMBI SEATS

The ultimate crew van conversion based on the Volkswagen Transporter SWB & LWB model panel vans

Volkswagens Transporter is one of the most popular vehicles in the UK market as a Panel Van and Kombi crew van. CoTrim have worked closely with Volkswagen UK and the main dealers for over 25 years, so knowing the vehicles and needs of customers inside out are pleased to be offering conversions to new and used Transporter Panel Vans to bring them up to the level of a Kombi by adding original Volkswagen seats and windows.

This page illustrates the split Volkswagen single and double set up, both individually removable, complete with headrests and 3 point belts. The single seat tilts forward to allow access past into the rear as required, while the double seat can fold flat, useful in many circumstances.

STANDARD CONVERSION SPECIFICATION

- Volkswagen single and double removable seats with headrests and 3-point belts installed behind the front seats to forward saloon area

OPTIONS & ACCESSORIES

- VW fixed and opening windows
- Interior lining to saloon floor, sides, doors, wheelarches and ceiling
- Interior insulation to sides and ceiling
- Foldable picnic table to nearside sliding door
- Reimo VTech open sky front elevating roof
- Reimo bed pack for use with above
- LED lighting
- Speakers
- 12v lighter and USB power sockets
- 240v hook-up
- Leisure battery, inverter and split charge system
- Solar Panel
- Webasto night heater
- Underseat swivels to cab seats
- Storage console between front cab seats
- VB 4 corner air suspension, to improve ride comfort and adjust ride heights from normal to Sport, off-road or car park
- C-Sport leather trim and exterior styling
- Side and rear awnings
- Roof rail system
- Bike carrier
- Curtain/blinds to cab and saloon windows
- Wheelchair passenger access and restraint system

TRIPLE VOLKSWAGEN KOMBI SEATS

The ultimate crew van conversion based on the Volkswagen Transporter SWB & LWB model panel vans

Volkswagens Transporter is one of the most popular vehicles in the UK market as a Panel Van and Kombi crew van. CoTrim have worked closely with Volkswagen UK and the main dealers for over 25 years, so knowing the vehicles and needs of customers inside out are pleased to be offering conversions to new and used Transporter Panel Vans to bring them up to the level of a Kombi by adding original Volkswagen seats and windows.

This page illustrates the Volkswagen triple folding removable bench seat, complete with headrests and 3 point belts. The triple seat tilts and rolls forward to create further load space as required.

STANDARD CONVERSION SPECIFICATION

- Volkswagen triple folding removable bench seat with headrests and 3-point belts installed behind the front seats to forward saloon area.

OPTIONS & ACCESSORIES

- VW fixed and opening windows
- Interior lining to saloon floor, sides, doors, wheelarches and ceiling
- Interior insulation to sides and ceiling
- Foldable picnic table to nearside sliding door
- Reimo VTech open sky front elevating roof
- Reimo bed pack for use with above
- LED lighting
- Speakers
- 12v lighter and USB power sockets
- 240v hook-up
- Leisure battery, inverter and split charge system
- Solar Panel
- Webasto night heater
- Underseat swivels to cab seats
- Storage console between front cab seats
- VB 4 corner air suspension, to improve ride comfort and adjust ride heights from normal to Sport, off-road or car park
- C-Sport leather trim and exterior styling
- Side and rear awnings
- Roof rail system
- Bike carrier
- Curtain/blinds to cab and saloon windows
- Wheelchair passenger access and restraint system

KOMBI INTERIOR LINING

Factory finish

CoTrim offer several solutions to upgrade the interior trim level and finish on Volkswagen Transporters including trim packs below.

Transporter SWB Single/nearside sliding door models only:

- ▶ Grey ABS full height trim panels to saloon sides and sliding door with storage
- Matching grey panel to rear tailgate/wing doors

Transporter SWB and LWB Single and Twin sliding door models:

- ▶ Cloth or carpet trim panels to sliding door/opposite or grey ABS full height trim panel to sliding doors
- Full height grey carpet trimmed panels to cargo area sides and rear doors
- Dark grey carpet trim to exposed interior paintwork where possible, including rear of B pillars, C and D pillars, offside window surround and cant rails.
- 2 x grey ABS wheelarch covers to rear

Further options associated with lining:

- Foldable picnic table to nearside sliding door
- Insulation to crew and cargo area sides, doors, arches and ceiling cavity
- ▼ Light grey headlining cloth trim to saloon ceiling panels

ACCESSORIES

- ▲ Foldable picnic table - stows to nearside sliding door
- Reimo elevating roof

- ▲ C-Sport leather trim to front and rear seats
